Solution Architecture That's Autonomous

HighRadius' AI-based E-Invoicing and Payment Software is a secure and scalable cloud-based solution that provides a self-service portal for customers and a merchant portal for suppliers to fast-track invoice delivery and acceptance of customer payments.

Key Product Features

E-Invoicing and Payment Features

Buyer Onboarding through Self-Registration

Simplified, secure buyer onboarding through emails, SSO, and buyer self-registration with 2-step authentication.

Self-Service Buyer Portal

Simplified, and secured buyer onboarding through a self-service portal supporting 15 languages, five currencies, and 150+ payment formats.

Automated Invoicing

Automatically deliver invoices and account statements to customers in their preferred formats - emails, e-fax, postal mail, and EDIs.

Automated Invoice Delivery

Auto-push invoices to 20+ A/P portals including SAP Ariba, Coupa, and accounting systems such as QuickBooks, and Sage.

Payment Features

PCI-DSS Compliant Platform

Virtual card processing and Level III card processing lead to payment processing cost savings for the supplier.

Integration with Payment Processors

Seamless integration with major global and local payment processors such as Chase Paymentech, FirstData, Barclays, and CyberSource.

Express Payments on the Go

Faster payments through custom-branded guest payment pages and by embedding payment links in dunning emails, websites

Faster Dispute Resolution

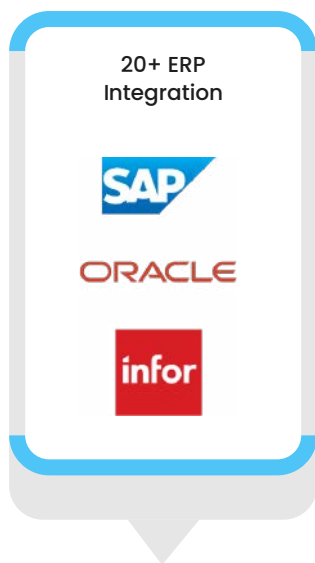

Provide support in discount strategies, resolve disputes faster in real-time, and handle different types of buyer hierarchies such as parent-child scenarios.

360-Degree Buyer Visibility Across Globe

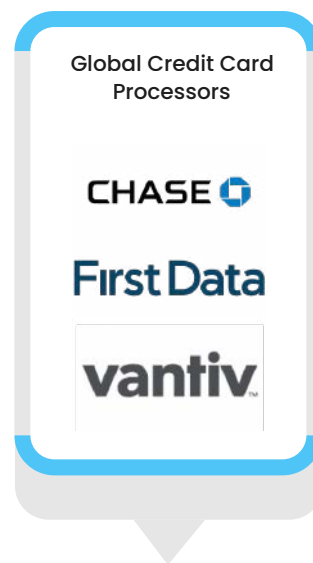

Manage and support buyers by scheduling payments on their behalf and tracking key metrics such as buyer e-adoption, presentment, and payment trends.

Seamless Connectivity with ERPs, and Credit Card Processors

Successfully integrate with a large variety of ERPs and global credit card processors.

Get pre-built integration with **major ERPs including SAP, Oracle, Sage Intacct, Microsoft Dynamics, and more.**

Get **out-of-the-box API** for integrating with global processors such as **Chase, FirstData, Vantiv, and more.**

HighRadius connects with a large number of tools in the OTC technology landscape to provide **~80% automation** potential

The Dynamic Duo of Data Security and Compliance

HighRadius' AI-based E-Invoicing and Payment Software has all the necessary assessments, compliances, and accreditations to keep your data confidential and safe.

- Supports assessments and global compliances, including ISO 27001:2013, HIPAA, SOC 2 Type 2, PCI DSS, and more.
- Provides industry-based security frameworks and practices

An Onboarding Program Designed For a Quick ROI

Our onboarding program ensures you achieve a **quick ROI in 24 weeks**. We typically onboard our clients in 2 phases.

Phase 1

In Phase 1, we do an out-of-the-box implementation in **12 to 24 weeks**. This phase includes:

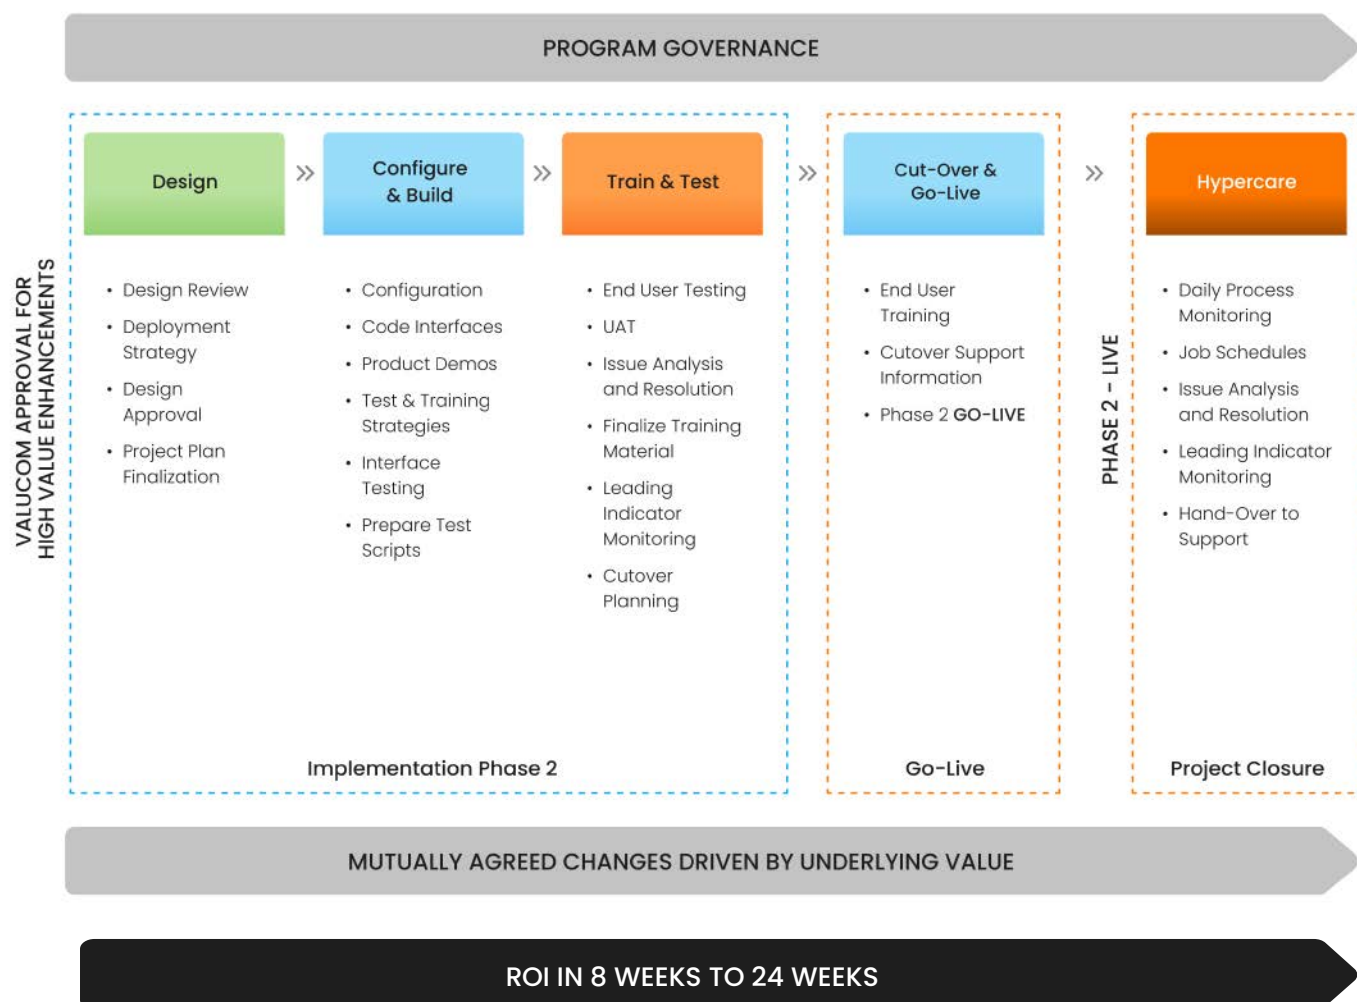

- Out-of-the-box features
- Out-of-the-box interfaces
- Functional additions that drive a higher proportion of the business value

Phase 2

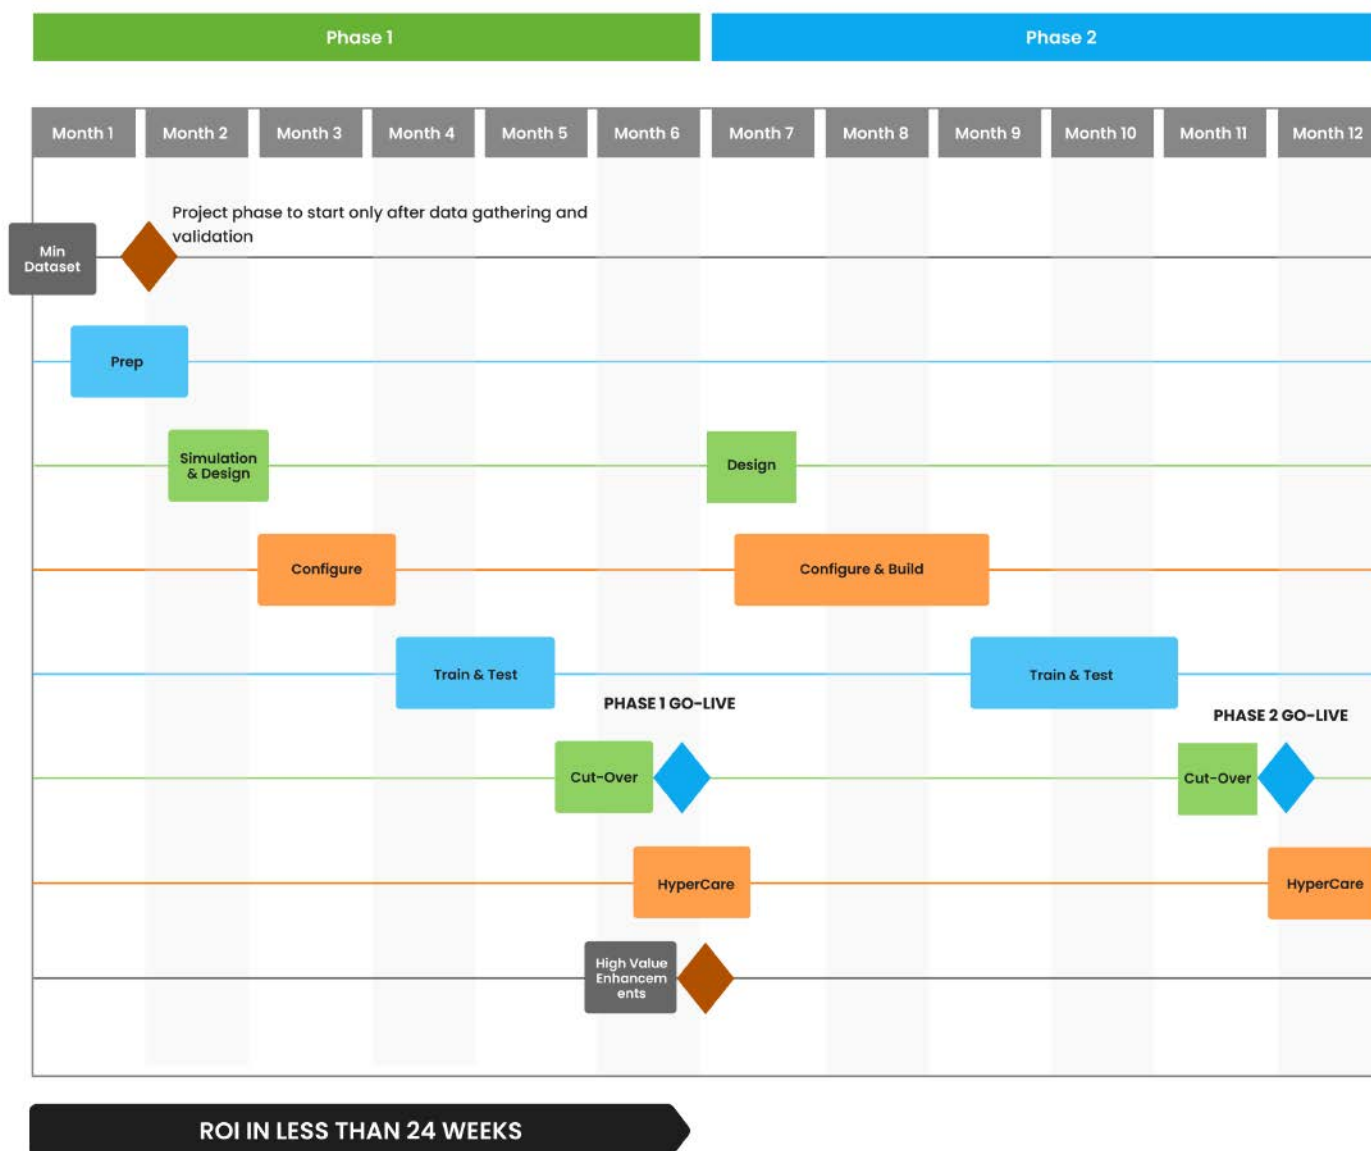

In Phase 2, if needed to achieve the agreed-on value, we will further improve your invoicing and payment process in the next **8 weeks to 24 weeks**. This phase includes:

- Additional out-of-the-box features that will help increase the value Customer gets out of the solution
- Any agreed-on interfaces needed to capture mutually aligned business value
- Out-of-the-box Functional additions

Lightning-Fast Implementation with ROI in 3 Months

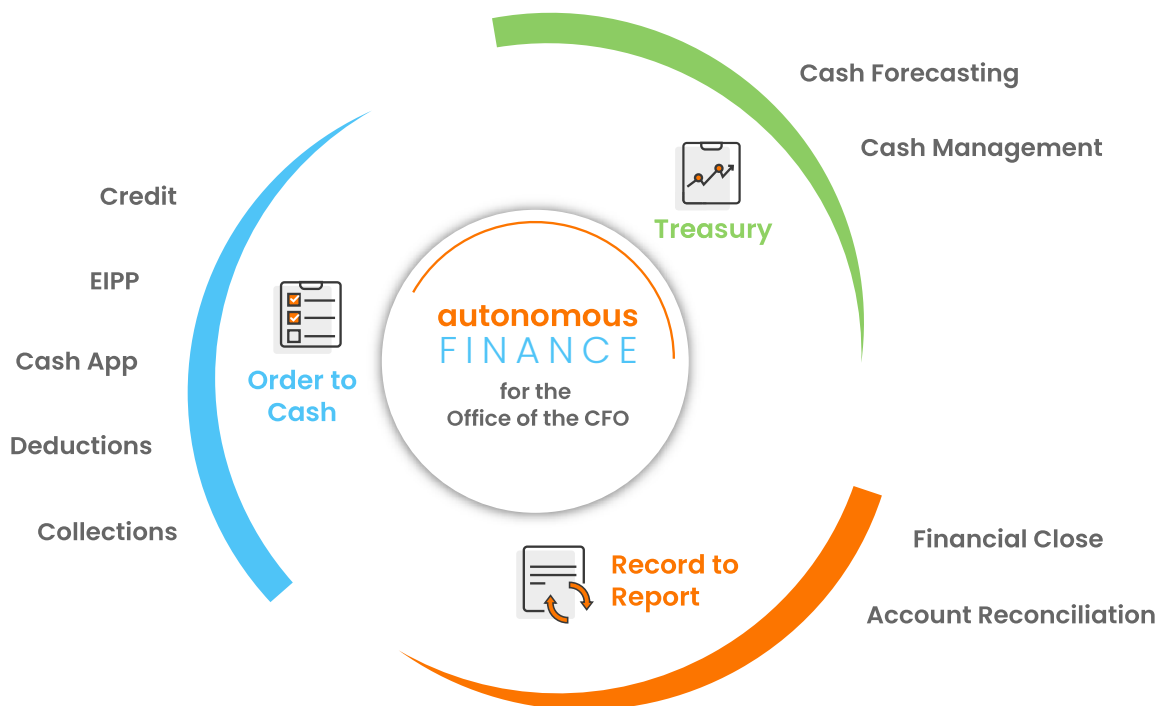

With HighRadius, you can enable frictionless billing and payments globally through auto-invoice delivery and self-serve payment portals in 24 weeks.

Reduce Credit Card Interchange Fees and Convert Checks to ACH payments in **24 Weeks** with HighRadius
